Today's Agenda:

1. Look at the Renaissance Downtowns proposal.
2. Determine key components of a proposal.
3. Develop guidelines for the project proposal.
4. Discuss impacts of energy consumption on land use.
5. Discuss zoning and land use regulations.
6. Work on projects if time permits.
What we think needs to be included in the project:

Pictures/Visuals/Blueprints/Maps

Data - tables/charts/graphs

costs

tax revenue and costs

land used

environmental impacts

human impacts (include traffic and security)

relevance (may include history)

viability (why will it work?)
Non-renewable Energy
Coal
Natural Gas
